

## **ELECTRONIC SNOW LINE – FALL 2011**

### **REVELSTOKE, BRITISH COLUMBIA, JAN. 28 – FEB. 5**

Members Lyn and Alex Stroshin visited the Revelstoke Ski Resort not long ago and here is what they experienced:

#### **The Town**

Alex and I walked in Revelstoke to get a feel for the town. It is very, very low key and the people are extremely friendly and welcoming. We met a fellow at the Rotary meeting and again later on the street and yet again on the mountain where he offered to give us a tour, (along with an English couple that he had just met on the gondola). It turned out that this fine fellow was the mayor of the town, David Raven. We will all meet Dave in January.

Revelstoke resembles Fernie in that it is a small town ski area. It is however, rapidly changing as the ski area's reputation grows. There are many interesting sites in and near Revelstoke, five museums including, the Nickelodeon, the Railway Museum and the Forestry Museum are all excellent. Plus a visual Arts Centre and an excellent art gallery with a native artist whose work is superb. We even bought one of her art pieces. The nearby Revelstoke dam and power station is one of Canada's largest and gives group tours. 40 minutes away is the fabulous hot springs, which make a great day trip. There is a great aquatic centre with slides and hot pools. There are your little quaint coffee shops and a number of good restaurants.

#### **The Skiing**

The skiing is great. There is much more intermediate skiing than we had anticipated. Some lovely long trails are gentle with a wide easy ski out connecting all of them. We also found some superb tree runs and bowls to ski. There are of course your expert runs along with the incredible cat and heli skiing which leaves from right outside of the lodge at the base of the 5,620 ft mountain. A mid-mountain day lodge is handy for lunch or a beverage break. Revelstoke usually gets huge amounts of snow, 40 to 60 feet annually. This is wonderful for powder hounds but it is also wonderful to keep those groomed green runs soft and easy as opposed to hard and icy!

#### **The Nelsen Lodge**

The Nelsen Lodge is ski in ski out and the rooms are beautiful! They are very nicely appointed and are of course brand new. Every room has a fully equipped kitchen and a washer/dryer. Also available are one, two and three bedroom suites. The rooms are private enough that if one couple or person wanted to bunk in with another couple it would work nicely and be great fun. Complimentary tea and coffee and wireless internet are included.

We had a great time thanks to a very warm and welcoming Rotary Club, a jewel of a ski resort and a unique mountain town that is perfect for an ISFR Ski Week. Alex and I are looking forward to seeing all of you in Revelstoke.
